# Topic 0 Class Introduction

資料結構與程式設計 Data Structure and Programming

09/11/2019

#### Is this the last DSnP class?

- ◆ Yes, DSnP is NOT a selective required course (複選必修課) for NTUEE anymore
- ◆ C++ is not the default language in Introduction to Computer class at NTUEE anymore
- ♦ It's been 16 years. Let's move on
- ◆ All the class materials, including my reference solutions of homework, will be made open source on GitHub.

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

#### **Class Information**

- ◆ Class Website: https://ceiba.ntu.edu.tw/1081 DSnP
- ◆ GitHub repo: https://github.com/ric2k1/DSnP.open
- ◆ Discussion board
  - ◆ FB → NTU DSnP
  - Since this is the last semester to offer DSnP, I will make the group open to public.
- My office:
  - EE building II 444
  - (FB/Line/Skype/WeChat ID) ric2k1
  - (e-mail) cyhuang@ntu.edu.tw
  - Office hour: stop by or by PM/e-mail appointment
- ◆ Class TA(s)
  - 李育嘉: r07921037@ntu.edu.tw
  - 江俊毅:
  - Others TBD

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### **Class Information**

- ◆ Required textbook: none
- Suggested reading
  - Class slides and source codes
    - Download from the Ceiba or GitHub website
  - Any of your Data Structure and C++ programming textbooks
- ◆ Highly recommended (DO THEM ASAP)
  - Review C++
  - Get access to and be familiar with Linux-compatible working environment

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

#### **Grading (May subject to change)**

◆ Homework◆ Final project◆ BonusTBD

The final grades are subject to linear adjustment. Instructor will determine the average and standard deviation

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### Overview of this course

Part 1: Introduction

Part 2: Polishing Your Programming Skills

Part 3: Data Structure Revisited

Part 4: Putting What You Learn Together

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

#### 選課方式

- ◆ 本課程今年為-類加選,沒有選上的人請自行線上 加選,沒有限制,請不要再寫信來問我啦!
- ◆ 但·這不是一門輕鬆的課·如果你沒有準備好整學期每個星期都 commit 一定的時間在這門課上面, 請不要輕易嘗試!
  - 七個作業 (14 週) + Final project (5 週)
- ◆ 我們有強大的抓抄襲程式,會在「事後檢查」是否 有抄襲的現象,請勿以身試法,會有嚴重的後果。
- ◆ 所以,如果你沒有把握可以堅持到底,其實可以不 用來選課,既然所有教材會開源,請自行學習就好

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### **Class Schedule**

09/11 Intro, C++ Review (Basic) HW1 out

09/18 C++ Review (Basic)

09/25 C++ Review(More on func, vars, classes) HW2 out HW1 due

10/02 C++ Review(overloading, polymorphism)

10/09 C++ Review(overloading, polymorphism) HW3 out HW2 due

10/16 Memory Mgr & Exception Handling

10/23 Complexity, List & Array HW4 out HW3 due

10/30 Tree (Part I)

11/06 Graph and Circuit HW5 out HW4 due

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

#### Class Schedule

11/20 Special Topic: Lex and Yacc HW6 out HW5 due 11/27 Heap/Set/Map, Cache and Hash

12/04 Cache and Hash, Linux Prog, HW7 out HW6 due

12/11 Final Project Discussion Proj. out

11/13 C++ Review - More on IO Streams

12/18 Final Project Discussion HW7 due

12/25 Tree (Part II)
01/01 New Year's Day

01/08 Final exam week

01/15 Final project week Proj. due

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

α .

### 這門課的目標是:

除了對於資料結構能有 正確的觀念之外,

起碼要有自行 handle 1000 行程式碼的信心!

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

關於【資料結構與程式設計】,這門課想要傳遞的觀念是...

- ◆ 語言的嚴謹性與設計的美感
  - 電腦語言 vs. 人類語言
- ◆ 程式的架構需要設計
  - 你寫的程式除了要讓電腦看得懂之外‧讓人類 (尤其是自己)看得懂更是重要
- ◆ 資料結構的重要性
  - ■試想你有一堆等待被運算或是分析的資料,如何確定某筆資料存在?如何確認所有資料被運算過一次?如何有效率的增加或是刪除資料?
- ◆ 資料 vs. 物件. 結構 vs. 類別
  - 希望大家可以將「資料結構」與「程式設計」融 會貫誦

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

10

#### 寫 1000 行程式,很難嗎?

- ◆ 當然,要看是寫什麼
- ◆如果是有功能性,可以解決一些問題的程式 · 1000 行的程式的確已經有相當的複雜度 重點是 --- structured design and thinking!
- ◆ 人腦的思考複雜度有一定的限制 · 如果有超過一定數量的元素要一起考量 · 就會無法掌握
- ◆但階層式的、歸納式、模組化的思考, 有助於化繁為簡,讓程式在可以 handle 的 範圍內被最佳化

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### 寫 1000 行程式,很難嗎?

- ◆ 10+ 行的程式
  - → 課本的作業,練習語法, no brainer
- ◆ 100+ 行的程式
  - → 熟悉語法之後,並持著一股浩然正氣的意念 用力寫下去,大家都做得到
- ◆ 1000+ 行的程式
  - → 如果有能力將 100+ 行的程式模組化·那 1000+ 行的程式要 handle 的只是最上層的 control flow, 何難之有?
- ◆ 10000+ 行的程式
  - → s/1000/10000, s/10000/100000, repeat this!

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

42

#### Overview of this course

Part 1: Introduction

Part 2: Polishing Your Programming Skills

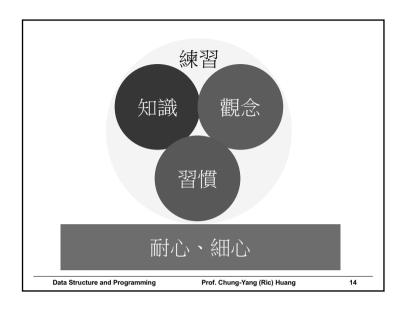

Part 3: Data Structure Revisited

Part 4: Putting What You Learn Together

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

15

#### 1. C++ Review - The Basic (Variables, Classes, IO Streams)

- ◆ Part I: Understanding "Variables"
  - What is a variable?
  - The concept of "memory"
  - Object, pointer, reference
- ◆ Part II: Understanding "Classes"
  - What is a "class"?
  - Constructor, destructor
  - new, new [], delete, delete []
  - A\*. A\*\*. A\*\*\*....
  - Access privilege: private/protected/public
  - Friend

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

- ◆ Target due: Week #3 (Tuesday, 09/24)
  - Learning and get familiar with Linux-alike programming environment
  - Review of basic C++ syntax
  - Implementing a JSON file reader
  - Ref code: 102/343 lines C++
    - Ref src / Ref prog.

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

#### Homework #2

- ◆ Target due: Week #5 (Tuesday, 10/08)
  - A command line reader
  - Thorough understanding of "pointers"
  - Basic program design
  - Ref code: 840/951 lines C++ (last year's)
    - Ref src / Ref prog.
  - New feature(s) may be added...

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

19

#### 1. C++ Review - The Basic (Variables, Classes, IO Streams)

- ◆ Part III: Understanding "I/O Streams"
  - C++ standard I/O
    - Introduction
    - Class hierarchy and included files
    - Class data members and member functions
  - File I/O
  - I/O manipulators

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

18

## 2. C++ Review - More on Functions, Variables, Classes

- ◆ Part I: Understanding "Functions"
  - Global vs. member functions
  - Function signature, prototype, definition
  - Function parameters, arguments
- ◆ Part II: More on "Variables"
  - "const" keyword
  - Array vs. pointers
  - Pointer arithmetic
  - Memory sizes of variables
  - Return value of a function
  - Compilation issues
  - Compiler preprocessors

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

### 2. C++ Review - More on Functions, Variables, Classes

- ◆ Part III: More on "Classes"
  - Class, struct, union, enum
  - Bit-slicing
  - Class wrapper
  - "static" keyword

Data Structure and Programming

Homework #3

Prof. Chung-Yang (Ric) Huang

- ◆ Target due: Week #7 (Tuesday, 10/22)
  - Complete command interface and a simple database system
  - Learn how to read a formal spec
    - Homework description file: 19 pages
  - Learn how to write a structured code
  - Ref code: 2118(2444)/2801 lines C++
    - Ref src (Ref src + hidden files)/ Ref prog.

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

23

## 3. C++ Review – Overloading and Polymorphism

- ◆ Class inheritance
  - Access privilege: private/protected/public
  - Virtual function and polymorphism
  - Abstract class and pure virtual function
  - Data encapsulation
  - Multiple inheritance
- ◆ Function overloading
- ◆ Operator overloading
- ◆ Class template class
- ◆ Template function
- ◆ Functional object

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

22

### 4. Memory Management and Exception Handling

- Memory related problems
  - Illegal memory address access
  - Memory leaks
  - Fragmentation
  - Performance issues
- ◆ Memory management
  - Basic concept
  - Categorization
  - How to implement
  - Basic concepts of data structure
- ◆ Exception Handling
  - Try, throw, and catch
  - Interrupt handling

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

- ◆ Target due: Week #9 (Tuesday, 11/05)
  - Memory management
  - Computer architecture concept
  - Pointers (again), basic data structure
  - Ref code: 1489(2924)/3099 lines C++
    - Ref src (Ref src + hidden files)/ Ref prog.

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### 6. Dynamic Array vs. Linked List

- Abstract data types
- Linear data types
- Static vs. dynamic array
- Why dynamic array? Why not linked list?
- ◆ How to evaluate their performance?
  - Runtime vs. memory usage

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

5. Computational Complexity

- Review of complexity analysis
- Why should I care?
- What's the most frequently encountered problem?
- ◆ What's your best bet?

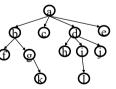

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### 7. Tree (Part I)

- ◆ Non-linear data types
- ◆ Decision trees
- ◆ Tree traversal
- ◆ Balanced trees
- ◆ Implementation issues

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

- ◆ Target due: Week #11 (Tuesday, 11/19)
- ◆ Implementation and comparison of various data structures
  - Linked list
  - Dynamic array
  - Binary search tree
- ◆ Ref code: 1593(3037)/3463 lines in C++
  - Ref src (Ref src + hidden files)/ Ref prog.

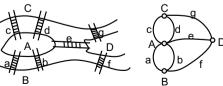

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

| <del>-</del>

#### 9. Graph and Circuit

- ◆ Tree vs. graph
- Basic graph theories
- ◆ Graph traversal problems
- Loop handling
- How to design data structure for a circuit netlist?

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

#### 8. C++ Review - More on IO Streams

- ◆ More on I/O manipulator
- ◆ Formatted and unformatted I/O
- ◆ States and flags in I/O streams
- ◆ Tying I/O streams
- ◆ File pointers
- ◆ Random access files
- ◆ Stringstream and streambuf

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### Homework #6

- ◆ Target due: Week #13 (Tuesday, 12/03)
- ◆ A circuit parser
  - I/O and file streams
  - Graph/Circuit data structure
  - Hash/Map usage
  - Boolean logic
- ◆ Ref code: 1535(2979)/4254 lines in C++
  - Ref src (Ref src + hidden files)/ Ref prog.

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### 10. Special Topic: Lex and Yacc

- ◆ What is a (programming) language?
- ◆ Lexical analysis
- ◆ Syntactical analysis
- ◆ Language parser
- ◆ Tutorial: an command-line calculator

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### 12. Heap, Set and Map

- ◆ Review of sorting algorithms
- Review of binary (balanced) trees
- Complexity analysis
- ◆ Alternative ways of implementation
- ◆ Standard Template Library (STL) revisit

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

#### 11. Programming on Linux Workstations

- ♦ Why Linux? Why not MS Windows?
- ♦ History of Linux OS
- Basic survival guide on Linux
- Writing programs on Linux
  - Shell commands
  - Compiler
  - Makefile
  - Debugger

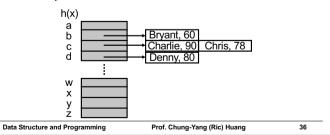

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### 13. Cache vs. hash

- Review on hash
- ◆ Alternative to hash
- ◆ What's the difference?
- Computational cache/hash

- ◆ Target due: Week #15 (Tuesday, 12/17)
- Implementation and practical applications of various data structures
  - Heap
  - Hash
  - Cache
- ◆ Ref code: 1544(2988)/3177 lines in C++
  - Ref src (Ref src + hidden files)/ Ref prog.

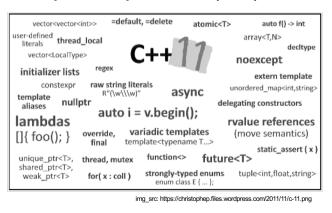

Data Structure and Programming

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

37

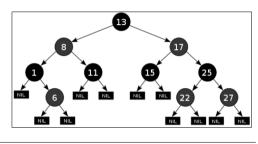

#### 15. Special Topic: C++11 (TBD)

Prof. Chung-Yang (Ric) Huang

#### 14. Tree (Part II)

- ◆ Red-Black Tree
- ◆ 2-3-4 Tree
- ◆ Splay Tree
- ◆ B-Tree

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### **Final Project**

- Functionally Reduced And-Inverter Graph (FRAIG)
  - Read in a circuit netlist (HW6)
  - Perform circuit optimization (graph operations)
  - Simulate the circuit (graph traversal, Boolean operations)
  - Collect functionally equivalent candidate pairs (efficient hash implementation)
  - Define the "magic number" to control the program flow (engineering sense)
- ◆ Ref code: 4822(6266)/8318 lines in C++
  - Ref src (Ref src + hidden files)/ Ref prog.
- ◆ 30% of the final grade!! Please start earlier!!

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### 益華電腦贊助 NTU DSnP 期末專題

#### Other than Homework and Project

- After-class practices
  - 寫程式·or in general 學習 CS 相關知識·很多觀念其實有些抽象·所以光用聽的·很容易忘記/沒感覺·一定要配合實際動手做、體驗、觀察·才能深刻體悟·內化成自己的實力。
  - 每堂課最後‧都會出幾個小練習當作下一堂課的教材‧請大家回家配合下一堂課的投影片自行練習。
  - 有練習,下次上課有體悟。沒練習,下次上課趕進度。
- ◆ 練習要不要交?算不算分數?
  - 我們還是會開 Ceiba 讓大家繳交·但不會算分也不會批改· 也不準遲交。
  - 但它可以在期末作為「bargaining power」·也就是說如果你的分數不小心差 0.5 分以內而掉了一個等地·你可以用它來證明你的認真程度·可以當作唯一期末要分的理由。

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

43

#### **Homework Assignments and Final Project**

- ◆ Once again, get yourself familiar with the C++ programming on Linux ASAP!!
  - You MUST compile your code on Linux or OS X environment.
  - g++ compiler is a MUST
- ♦ Homework turn-in
  - Through NTU Ceiba class website
  - Please pay attention to the rules on the class website
  - Filenames, compression rules, etc.
- No copying/pirating
  - If happens, -20 for your term grade!!
- ◆ Don't miss any homework!!
  - ~10% of your term grade...
- ◆ Do not delay
  - 1 day  $\rightarrow$  1/3
  - 2 days  $\rightarrow$  2/3
  - 3 days and up  $\rightarrow$  0

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

42

#### 聽說這門課很操,是真的嗎?

◆不要懷疑·根據多次的問卷統計·同學們覺得這 門課的 loading 大約 >= 9 學分·每兩個星期要 花 20 ~ 30 hours (以上) 在作業上。

#### 因為我覺得台大的學生根本修太多主科了!!

你可以去修很多其他領域的課·跨領域學習· 增廣見聞;

但你如果想要把一些專業科目學好,我覺得一學期 應該修兩三門就好,然後每門課九學分(誤)!

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

#### 會寫程式對你很重要嗎?

- ◆ 拉長職涯來看,答案很可能是「Yes」,但如果 以現在這個 moment 來看,答案也很可能是「 No」
- ◆網路世代的學習方式不應該再想要「什麼都想要 學會」,也不應該只「拘泥於課堂上的學習」
  - On-demand learning
  - Self-learning (internet resources)
  - 英文的閱讀能力甚至是聽力還蠻重要的...
- ◆ 以終為始,有策略的規劃人生。 培養興趣,才有學好程式的動機。

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

47

#### 2019 年了, 我們還需要學 C++ 嗎?

- ◆ C++ 很煩!! 為什麼不直接學簡單又漂亮的 Pvthon, 或者是很潮的 JavaScript 呢?
  - 身為工程學系的學生·我們除了要能夠很快的把 事情做好之外·還要有把東西 optimize 10X 以上 的能力
  - 不過現實是·看看你們 HW#1 的 code, 可以想像如果讓它再長大十倍、百倍、千倍... 會變成什麼樣子嗎?
- ◆ 很多人都說, 學會 C++ 以後, 在學任何語言都 會覺得很簡單
  - 但真的要看你未來想做什麼,說真的,你很可能 完全沒有必要把自己搞得這麽累...

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

---

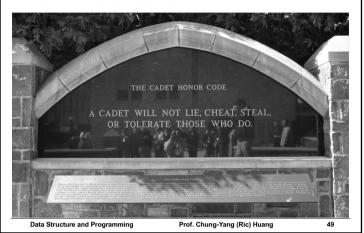

#### 你確定可以堅持一整個學期?

- ◆ 我是個寫程式的小嫩咖·我有辦法修這門課嗎?
  - 原則上絕大部分的人在你們這個年紀都是寫程式 的小嫩咖,所以我想沒有問題。
- ◆ 重點還是要能有每兩個星期交一個作業,連續14 周,然後再加上一個期末專題的 "commitment"
  - 再強調一次·要考量現實·不要輕易相信自己的 意志力可以戰勝一切!
- ◆ Commitment 從何而來?
  - 首先,請確定"把程式學好"對你的重要性
  - 再來,請確定自己可以接受"學習比成績重要"
  - 還有,請發誓自己"寧願被當,也不會抄襲"

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

#### **DSnP Honor Code**

#### **DSnP Honor Code**

- ◆ 上課要專心,座位有限,寧願翹課也不要來課堂 做別的事,佔用學習資源
  - ◆不點名 · 學生有自行決定如何學習的自由
  - 但是如果你是來教室上臉書、打電動、睡覺補眠 ,那對我是種不尊重,對同學也有不好的影響。
  - 如果你覺得上課的內容你都已經會了,就請不要 貪圖這個學分,把座位讓給別人,或者,你也可 以不用來上課。
  - 不過・上課用電腦寫寫小程式・驗證上課所學・ 或者是上網查詢相關資料・是被鼓勵的

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

51

#### **DSnP Honor Code**

- ◆ 上課要專心, 寧願翻課也不要來課堂做別的事
- ◆作業不抄襲,寧願被當也要從頭到尾自己寫

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

-

### DSnP Honor Code --- 關於抄襲

- ◆ Definition: 所謂「抄襲」·就是將別人部分或是所有的 code, 用 copy/paste, 或是看著 code 跟著打的方式·變成自己的作業的一部份
  - 歡迎互相討論·甚至拿別人的 code 來 study 也不會/無法禁止 ( 雖然這樣並不好)·但最後一定要自己獨立的寫。
- ◆ 我們有強大的抓抄襲的程式·會對所有的作業以及之前學長姊的作業去做比對·如果沒有抄襲·相似度都會很低·但如果有抄襲·不管你是改變數名稱· 還是換 statements 順序... 等等·我們都可以很容易抓出來·所以請勿抱著苟且的想法。
  - 以我們的作業複雜度而言·只要是自己寫的·一定一眼就可以看出跟抄襲的不同。
- ◆ 凡抄襲者不論多寡、理由·除該次作業 0 分之外·學期成績一律 再扣 20 分 (調分後)

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### 一些前車之鑑...

老師您好:

對不起老師...我對之前的作業有些抄襲or參考的疑慮·睡覺都睡不好·

所以還是先寄信詢問(自首)了...雖然我自認程度很輕微拉(爬過ptt對於抄襲的定義·覺得還好??)

自從在寫HW4快到尾聲時在網路上搜到疑似老師2012年DSnP的解答...相信老師都知道·因為實在太好搜了== 之後我作業不懂的就會去看老師的code...

...

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

53

#### 一些前車之鑑...

(From Ric)

、很遺憾的, 你沒有在學期中我一再強調抄襲的定義的時候就主動承認, 而前幾天問你的時候你也還是無法就直接承認你就是有抄襲。

因此·我只好按照學期初所說的規定·將你該次的作業算成零分·然後學期成績在調分後再扣 20 分·因此·你的成績將會變成 52分(F). 希望你可以接受這樣的處置。

#### (Reply)

這次的經驗已經讓我飽嚐煎熬與苦頭

以後不只不敢再犯大概還會便成陰影警惕很久

這幾天也想了很多·那些文過飾非的話大概不只是想要粉飾太平· 一部分也是因為內心本來就有所愧疚想要說服自己吧

正如教授所說:不只沒有遵守規定·我還欠缺更多勇於認錯承擔的 態度

謝謝教授、還願意耗費時間跟我說這麼多。

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

55

#### 一些前車之鑑...

我覺得網路上那2012版的解答·雖然部分不夠完美(EX:HW6 qate定義覺得可以再刪減)·

但他對於我就像潘朵拉盒子,一載下來看,就是罪惡...可是當作業不懂時,他卻是最好的來源。

....

如果真的被處罰也很甘願,因為是我自己程式能力不足。

儘管如此...還是拜託老師開恩...即使有2012年的code·我每次作業也是會花20小時up·覺得努力沒有比別人少... 也常常跟同學討論code·當然都是based on對老師code的理解·再加上自己的詮釋。

最後·謝謝老師看完我很長的解釋文...感謝老師開DSnP·我學到的真的很多!!

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

54

#### 雖然這門課很操...

- ◆但好處是沒有期中 & 期末考,不用去 K 教科書或是消習題。
  - 不過有期末 project
  - ●而且要學會自己找參考資料
- ◆ 所以如果你還要忙社團或是要參加什麼隊的 · 或是其他的課很重·請搞清楚你的 availability·切莫**始亂終棄!!**
- ◆ Again, 我的目標是:同學們在修了這門課之 後除了對於資料結構能有正確的觀念之外· 起碼要有自行 handle 1000 行程式碼的信心!

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

### A short version of "Computer Programming" class?

- ◆ NO!!
- ♦ If you don't have any background in C++ (or C)

...

- You probably have chosen the wrong class.
- ◆ If you are poor in C++ programming...
  - Well, you are definitely NOT the only one, so you are very welcome!!
  - Please pay attention to the lectures in this topic, and make sure you can commit enough time on homework

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

\_\_\_ |

#### "Should I stay or should I go?"

- ◆ Please check on your own:
- 1. Do I have the eager to improve my programming skill?
  - ●光有"希望"是不夠的,要有"渴望"才行。
- 2. Am I willing to spend more than 10 hours per week on the homework?
  - ■獨力完成,不抄襲,也不要當寄生蟲。
- 3. Do I agree that "learning" is the most important thing in class?
  - 心態上要能接受 "學習" 比 "分數" 重要。

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

59

### You may think I cover way too many details in C++... (Why bother to understand them?)

◆ Remember:

Programming is a computer science.

- There is NO random bug!!
   Everything happens for a reason.
- You need to be rationale, and be "precise on the details".
- → Capability to handle the complexity!!
- But...

Programming is also an art.

- A good program looks beautiful!!
- A beautiful program is beautiful for a reason.
- A good design is a MUST, and easy to maintain to make the program live long!
- → Sense to manage the complexity!!

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

千萬不要認為 CS 很熱門就

跑過來修 DSnP...

除非你想下猛藥來確認自己適不適合 當軟體工程師...

**Data Structure and Programming** 

Prof. Chung-Yang (Ric) Huang

#### 歡喜修課,甘願承受

- ◆ 說實在的 · DSnP 是 NTU(EE) 的奇蹟!
  - ●需要大家共同的珍惜
- ◆並不是絕版,只是不再開課
  - Learn it yourself online!
- ◆非誠勿試,please!!

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

64

#### Other administrative information

- ◆ For 旁聽生
  - ●原則上不限旁聽·但如果教室過於擁擠·請旁 聽生將座位優先讓給修課的同學·至隔壁博理 112 看轉播·謝謝合作!
  - 今年不再幫旁聽生加 Ceiba, 請自行到 GitHub 下載課程資料即可
    - Search for "DSnP.open", "ric2k1", "GitHub"

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang
